EACH MONTH ONE OF OUR STAFF RECOMMENDS ONE OF THEIR FAVOURITE PRODUCTS.

STAFF PICK

This BEAST is actually cool!

*By **Damo** (Radio Parts Showroom Manager and sometimes Hi-Fi Guy) –*

Children of the 80's, and those who wish they grew up in that decade, rejoice! The Ghetto Blasting Boombox has returned and this time its full of modern day awesomeness!

I had so many versions of these growing up (I should have kept them all, I'd be rich) and now the GPO Brooklyn takes me right back to those days.

You still get all the traditional playback options of old… FM Radio, CD Player and a Cassette Player (such a rarity these days), but they have brought it in to the 21st Century with DAB+ tuner, Aux Line input, Bluetooth Receiver, and rechargeable Lithium Battery on board. Plus as you would expect, a headphone socket and surprisingly unexpected, a microphone socket. Topped off with Bass & Treble control which was also something I craved on some of my earlier systems, it's got the lot!

I am also impressed with the sound quality these deliver – way better than anything I had 30 years ago, and that's one of the main things that lead me to saying "Yes we should sell these". The discreet slot loading CD player on top keeps the appearance of this unit looking very retro and hiding all its mod cons, and is available in Black or Silver.

RSP INC $599.95
