↗ You can easily check the internal battery's condition at the touch of a button.

RSP INC
$129

CLEARANCE!

NILES ®

Whether your talking about the exclusive Niles DS range or the standard CM range, the PR performance speakers and the HD High Definition speakers represent the best. These are for areas where your sit and listen to music, be it the deck or as a part of a home theatre.

Niles in the US has given us a once only 30% off, but pricing only applies while "deal stocks" last!

There are plenty of other areas in a house where musical fidelity is of less importance. It might be a bathroom, hallway or the kids' bedrooms. These will fit in nicely with the PR and HD series, but won't stretch the budget!

SOLD AS SINGLE UNIT

7" BACKGROUND LISTENING
2-Way Background -

▶ **Video** online

RRP $199

CM7BG | 39812450
↗ The BG design is equally attractive as it's bigger brothers here, though the low price means that every zone can be soaked in music!

elipson®

Fully engineered and made in France with a 3-year Warranty

KEY FEATURES OF ELIPSON TURNTABLES

ICB Infinite Centering Bearing - Dedicated Centering
Bronze bearing ensure perfect centering of the turntable plate

OTT Orbital Tension Tonearm - It Will Not Stand Idly
Major technical advance fully developed and patented by Elipson, the OTT Aluminium tone arm has been designed as a high quality balance to avoid vibrations.
By exerting a torsion, a backscatter strength is created and provides an adjustable and accurate anti-skating system (compensation centripetal force).

AVF / DDS - Precision Electronics
By developing their own power source, the Elipson's turntable can work on any voltage and any frequency in the world (100-240V, 50-60Hz).

The Direct Digital Synthesis enjoys an extreme accuracy of the plate rotation, allowing playing and listening perfectly fluid.

MSD Motor Suspension Device - There's Something Under The Hood
The Motor is suspended to prevent vibrations.
