NEW

The short story is that we picked up loads of leads, cables, interconnects and other stuff at RIDICULOUS prices. Most this stuff was previously sold through retail chains like JB HiFi. Now, the long story! Our understanding is that Musicway Corporation was owned by a multi-billion dollar Singaporean property conglomerate. They were probably not too interested in the cable business, so they sold this part of the business and liquidated all the additional stock. Nothing wrong with the stock. They just decided that it was time to move on. The exciting bit is that we get a lot of fantastic accessories at way below landed cost!

18GBPS FIBRE HDMI 2.0 ACTIVE OPTICAL CABLE

HDMI 2.0 Active Optical Cable (AOC) is used to extend the transmission distance between HDMI source and sink devices. The transmission distance can be up to 200m (660ft) through a hybrid cable consisting of optical fibres and copper wires. The high-speed TMDS signals are transmitted through the Optical multi-mode fibres, while the low frequency control signals are transmitted through the copper wires.

To support the new HDMI 2.0 specification, HDMI 2.0 AOC is now compliant with Blu-ray players and TV sets supporting 4k display resolutions that are going to come to the market.

With advanced optical engine embedded, it is feasible to connect any HDMI devices such as Blu-ray, DVD, projectors, video games, computers and mobile to enjoy the high quality display.

- Suitable for digital home theatres, conference rooms, auditoriums, LED signboards, outdoor advertisings, panel information displays for Airports and Stadiums, etc.
- Compliant to link with all HDMI A-type connector
- Compliant with HDMI 1.4b and 2.0 specification
- Longer, thinner cable without EMI/RFI emissions
- Proven 850 nm VCSEL array technology
- Low power consumption

PORTABLE BLUETOOTH SPEAKER

DOSS®

Sometimes in our industry, we have products that just sell themselves. The Doss DS1681 Bluetooth speaker is one of these products. The stock recently arrived and I was very impressed with some of its features.

The unit comes in a very neat retail box with 3.5mm lead and charging USB lead included. It paired immediately with my phone via Bluetooth and its sound was amazing for its size.

It features rechargeable battery for portable use, switchable mode between Bluetooth, SD card and Aux input and superb volume control via touch on top of the unit.

With good margins for re-sellers and a good trade price, these will be very popular! Come in for a listen at our showroom and you will be impressed!

- Ease of use with touch controls
- Sleek design with portability in mind
- Bluetooth, Aux-in, or TF card input
- Driver power: 12W
- Unit dimensions: 168 x 69 x 74mm
- Battery type: Li-ion 3.7V, 2200mAh
- Playtime: 12hrs ➤ 5V 1A input

CLASS SERIES ✓
2-WAY ACTIVE BOX SPEAKERS

Wintal®
Digital Living

What happens when you have a fantastic, reliable and popular product? You stick to the blueprint and add more features!

That's exactly what we have done with the new Class Series Active speakers. We have taken the reliable Studio Active series speakers and changed the look to a modern design and added some extra features.

It's still available in a 5 and 6 inch size, has an integrated Class D amplifier built into the active side to allow any audio source to be connected direct and is available in white or black.

The new feature has been a request from our installers to have an auto-standby function, so utilising signal-sense technology, the class speakers will switch to sleep mode when the audio signal has been stopped. It will then wake and power up as soon as the audio signal is active again. It is great for education and office presentation areas where they may have been left on after they have left the room.

Stock is due soon, so come into the showroom for a listen and I am sure you will be impressed.

- Built-in Class D amplifier, allowing direct connection from an audio source
- Universal 180° swivel bracket
- Impedance (slave): 8Ω
- Sensitivity: 89 dB
- 240 AC power input
- 1 year warranty

TERMS & CONDITIONS Product features and pricing in this newsletter are subject to change without notice. Special promotional prices advertised here are valid for the month the newsletter has been published. However, some offers may commence or extend beyond the length of the promotion. Availability and pricing of products are offered on a while stocks last basis. Most products have been photographed in-house and are identical to what you will receive, but manufacturers may make improvements during the life of a product without notice and this may result in a slightly different design. If certain product features are important, please contact our sales department for confirmation before ordering the product. Information presented in this newsletter has been checked and is believed to be correct at the time of printing, however, errors and omissions are excepted. Radio Parts can not guarantee prices, specifications, or features of a product that may change after printing. Radio Parts reserves the right to correct printing errors. *Device displayed to demonstrate purpose of product may not be included—please check with Radio Parts where unsure.
