

HDMIC5 HDMI OVER CAT5 EXTENDER

**Brand:** PRO2**Model:** HDMIC5**Code:** 07351015**Warranty:** 12 months**POWER SUPPLY****Package contents:**

- 1x Transmitter Unit
- 1x Receiver Unit
- 1x power supply (5VDC / 2A)

Extend High Definition HDMI signals over CAT5e Cables

The HDMI extender includes two units: transmitter & receiver. The Transmitter is used to capture the input HDMI signals and carries the signals through two RJ-45 connectors into two low cost CAT-5e cables. The receiver is responsible for equalizing the sent TMD5 multimedia data. With equalization control switch on the receiver, users can adjust the equalization strength to the received TMD5 signals, and therefore optimize the transmission distance between source and destination.

**Deep Colour****x.v.Colour****BUILT-IN BOOSTER****Features**

- Use CAT-5e cable to substitute HDMI cable to achieve long distance transmission
- Extend up to 55 meters @ 1080i, 60Hz
- Extend up to 30 meters @ 1080p, 60Hz
- Cable skew adjustable equalization with 8 levels
- HDCP compliant

Specifications

- Video bandwidth: 2.25 Gbps (HDMI 1.3a)
- Deep Colour support: up to 12-bit
- Input TMD5 signal: 1.2 Volts (peak-to-peak)
- Input DDC signal: 5 Volts (peak-to-peak)
- HDMI connector: 19 pin type female connector
- Power supply: 5V DC / 2A
- RJ-45 connector: 2 indication LEDs
