- 240V 10AMP 2400W max

MODEL	CODE NUMBER	TYPE
<b>PB40</b>	33531003	4-way powerboard
<b>PB60</b>	33531006	6-way powerboard

Approval No. N1185  
 Q03786

### SURGE PROTECT POWER BOARD

The SPB44 4 way surge protect powerboard has individual On/Off switches to turn individual devices completely off, saving from stand-by power.

- Wide spread outlets also make it easy to connect multiple adaptors that are generally too wide to plug in side-by-side.
- Circuit overload protection
- Individual On/Off switches
- Flame retardant case
- Wall mountable design
- 1.2m cord
- Wide spaced outlets allow for adaptors and other wide plugs
