

COMPONENT + IR OVER CAT5E WALL PLATE KIT

Pro.2
Providing AV Solutions

PRO1200
Component Video & IR
over CAT5 Extender
Wall Plate Kit

CODE: 39894072

CAT5 EXTENDER SERIES

Imagine the simplicity of running a CAT5 cable through your walls instead of a full size RCA cable.

Kit includes:

- Transmitter & Receiver
- Surface mount IR receiver
- PRO1142 Dual IR emitter
- Power: 12VDC 200mA

component video + ir over CAT5E extender wall plate kit

Using basic or shielded Cat5e or Cat6 cables, the PRO1200 kit allows economical long distance distribution of high quality component (YPbPr) video as well as remote controlling devices through the integrated IR repeater.

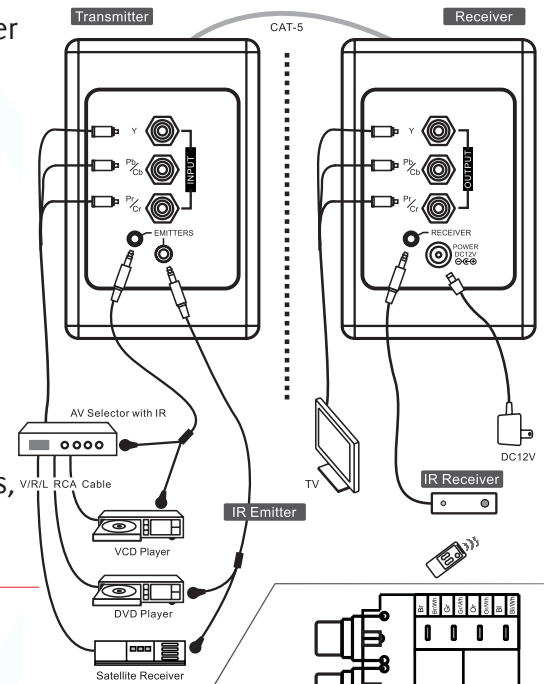

Ideal for such devices as DVD players, satellite receivers, Cable boxes, video games, plasma and LCD displays, projectors, monitors, AV receivers, switchers, and other equipment supporting component video signals.

Features

- Deco style wall plates
- 3x RCA (Y/Pb/Pr) to UTP: 110-type rear punchdown
- Distance: Over Category 5e/6 UTP cable:
480p > 100 m | 720p > 75 m | 1080i > 50 m
- CFL friendly - Allows installation with CFL lighting
- Cord Length - 3 m on IR emitter and IR Receiver
- Confirmation LED on IR receiver

Specifications:

- Impedance:** Video: 75Ω unbalanced | UTP: 100Ω balanced
- Bandwidth:** Video: DC~60 MHz
- Infrared Component:**
 - IR control through the integrated IR repeater
 - Receive Frequency: 34kHz to 40kHz
 - Transmit Frequency: 38kHz
 - Range: On Axis - 50ft / 30° Off Axis - 40ft

Wire Order
