RECORD OR BACK UP TO USB
+ MP3 AND JPG PLAYBACK

7 DAY EPG

Two genuine HD tuners make it possible to record one or two channels simultaneously and watch a previously recorded program at the same time. It is also the first Wintal to feature the unique 2 additional source inputs, allowing you to connect external sources like DVD players, VCRs or cable TV and having the luxury of viewing and recording these sources as if they were just another television channel! With the majority of TV channels in Australia starting to heavily broadcast in HD and with more and more devices, the PVR10HD is the simple solution for all your SD and HD digital television needs.

High definition picture and sound

- Integrated MPEG2/ H.264 HD decoder
- Watch crystal clear free-to-air television in stunning high definition
- 1080i HD output via the HDMI output
- Dolby 5.1 channel AC-3 Audio decoding // Watch your favourite shows in 5.1ch surround sound!
- Automatic downmix of 5.1ch AC3 to two channels encoded with Dolby Prologic Surround
- Get digital audio output via the optical rear port to connect to your AV receiver

Record two channels simultaneously

- The PVR10HD's genuine twin tuners allow you to record 2 shows simultaneously and also watch a third pre-recorded program or a third live sub-channel (ABC2, SBS2 etc.)

Record to built-in 500GB SATA hard drive or external USB drives

- Record and store a massive 350 hours SD or 115 hours HD digital television on the in-built hard drive*
- Based on 1.3gbps for SD & 3-4gbps for HD streams
- Record to any FAT32 formatted external drive via the front or rear USB ports
- Export and share your recordings via the front or rear USB ports. Simply plugin your external

drive and copy your files over!

2x External AV source record

- Two rear AV inputs allow you to hook up any external AV source and record to the internal hard drive or external hard drive

IR Learning remote control

- Wintal's One Remote // No extra remote controls
The PVR10HD remote has four "learning" keys that can mimic IR commands from your other devices. For example, you can turn on your TV and using the Custom 1 (C1) and Custom 2 (C2) buttons, adjust the volume from your AV receiver using the PVR10HD remote.
- The Wintal free support number is also on the back of every remote control, meaning we'll be close at hand if you run into trouble!

Front and rear USB2.0 ports

- Playback your MP3 audio files and JPG slideshows from your mp3 player, camera, recorder etc.
- USB2.0 host connectivity

Learning Remote control

Control your TV and your PVR10HD using the one remote! With 4 learning buttons, you can use the Wintal PVR10HD remote to replace your existing TV remote control. You can for example, turn your TV on or off, adjust your AV receiver volume using the PVR10HD's remote.

Low power consumption

The PVR10HD is MEPS (Minimum Energy Performance Standards) compliant, meaning it consumes less than 1 watt of power during stand-by 12 V DC external power supply keeps the PVR10HD running cool
