4K 18GBPS HDMI LEADS

Pro2's 18Gbps HDMI leads support a high-bandwidth of 4K resolution 2160p@60Hz, nearly four times that of 1080p@60Hz, providing a spectacular quality in both video resolution and audio channels at any distance.

- Full 18Gbps bandwidth
- UHD 4K 2160p@60Hz
- 48-Bit Deep Colour
- HDR + ARC

HDMI 2.0 Active Optical Cable (AOC) is used to extend the transmission distance between HDMI source and sink devices. The transmission distance can be up to 200m (660ft) through a hybrid cable consisting of optical fibres and copper wires.

The high-speed TMDS signals are transmitted through the Optical multimode fibres, while the low frequency control signals are transmitted through the copper wires.

HDMI 2.0 AOC is now compliant with Blu-ray players and TV sets supporting 4K display resolutions.

4K 18GBPS SPLITTERS, MATRIXES & SWITCHES

4K 18GBPS HDMI SPLITTERS

Our range provides an ideal solution from a simple home scenario to a massive 8 monitor commercial installation. All models are built to last, constructed with a solid and robust metal casing. The Pro2 HDMI splitters are also powered, meaning they can help extend your cable runs by equalising your signals and reclocking them before passing them onto the displays. And finally, with their built-in EDID feature, the splitter will automatically downscale any 4K signal to 1080p if the display attached to the port can only handle 1080p without affecting any 4K capable display!

4K 18GBPS 3X1 HDMI 2.0 SWITCH

HDMI3S18G | 64510045

The HDMI3S18G switch is a simple 3-way switch with an IR remote. It'll conveniently remember the last selected source.

- Support CEC HDR
- HDCP2.2/HDCP1.4 compliant

RSP INC
\$79

4K 18GBPS 4-WAY HDMI SWITCHER

HDMI4S18G | 64510380

Easily switch between four different HDMI sources. With the HDMI4S18G you are getting the latest and greatest in what HDMI has to offer: 4K, 18Gbps bandwidth, HDMI version 2.0, HDR10, and ARC. To top it all off, the HDMI4S18G is also an excellent HDMI audio extractor, allowing you to output audio only in either two-channel stereo or 5.1ch surround sound. With ARC, you can grab the audio signal from the TV and output it using the S/PDIF or RCA outputs.

RSP INC
\$129

4K 18GBPS 4-IN 2-OUT HDMI MATRIX

HDMIMX42V2 | 64510199

The 4x2 HDMI 2.0 Matrix Switcher simultaneously routes four HDMI sources to two HDMI displays. It supports up to 4K2K@60Hz YCbCr 4:4:4 and HDCP 2.2. Output A supports audio de-embedding to optical and analog L/R outputs. Output B can support 4K to 1080p downscale function automatically if source is 4K but TV only supports up to 1080p. 16 different EDID configurations can meet most of use cases. Flexible control through on-panel buttons, IR control.

TERMS & CONDITIONS Product features and pricing in this newsletter are subject to change without notice. Special promotional prices advertised here are valid for the month the newsletter has been published. However, some offers may commence or extend beyond the length of the promotion. Availability and pricing of products are offered on a while stocks last basis. Most products have been photographed in-house and are identical to what you will receive, but manufacturers may make improvements during the life of a product without notice and this may result in a slightly different design. If certain product features are important, please contact our sales department for confirmation before ordering the product. Information presented in this newsletter has been checked and is believed to be correct at the time of printing, however, errors and omissions are excepted. Radio Parts can not guarantee prices, specifications, or features of a product that may change after printing. Radio Parts reserves the right to correct printing errors. *Device displayed to demonstrate purpose of product may not be included—please check with Radio Parts where unsure.
