AIRLINK002 HALF PRICE CLEARANCE!

To make way for the next generation, we're clearing out all our current Airlink002 stock at half price!

WHAT DO YOU GET WITH THE CURRENT GENERATION?

You get the most responsive 11ac Wi-Fi experience and the easiest dongle set-up. Check out the YouTube video!

IS IT WORTH WAITING AND PAYING EXTRA FOR THE NEXT GENERATION?

The biggest feature will be tiled displays, so if 2 users press their usb dongle, the screen gets split in 2. A 3rd or even 4th user can join in. Some other notable features are Kapinski certification and the lowest latency mouse tracking. We're also investigating McAfee, which has been requested by the government.

8mate

EACH MONTH ONE OF OUR SALES REPS RECOMMENDS THEIR FAVOURITE PRODUCTS. MARK DE HAVILLAND'S PICK

REPS' corner

Those who know me will know I have been dealing with media players for around 8 years now, most recently my favourite being the 8mate, a FAST and RESPONSIVE device which I have found to be nearly BULLET-PROOF in terms of a user friendly experience. I love to promote products which I personally use at home, in this case, a product which for the most part is brilliant at streaming movies and TV shows. These days there are many options for streaming content, whether you like NETFLIX, Stan, or you simply like to jump on to YouTube and watch content from there. Whichever App you chose to use, the 8mate delivers fantastic picture quality, vibrant colours and clear images, better than any other media player I have ever used.

It has a brilliant home page menu which you can customise with your favourite Apps, it TELLS you when you are or aren't connected to the internet, and is just easy to use. I don't want to bore you with too much TECHNO-BABBLE about what specs it sports, all I will say is the picture quality from this unit blows it's opposition out of the water and it doesn't glitch. Both Stan and NETFLIX are now streaming lots of shows in 4K and this device reproduces it like you're watching a Blu-ray... I love it.

This product is worth every penny. It delivers in many ways and I'm glad I have one myself. To those of you who are fussy viewers, make your TV great by adding an 8mate... (no poetry intended 😊).

TV VIEWING WITHOUT THE BACKGROUND NOISE!

ALL NEW
Due to arrive mid June

"Exceptional audio should be available to everyone, everywhere" according to Avantree. And we agree!

When it comes to watching your favourite TV shows, playing the latest video game or getting your groove on in the lounge, the last thing you need is to be distracted by others or be bothered by background noise.

This is where Avantree's range of wireless Bluetooth adapters and accessories come in. Delivering exceptional sound, at affordable prices and the ultimate audio freedom, regardless of where you are or what you're doing.

Being one of China's largest manufacturers in electrical goods, CHI Q continues to produce a wide range of TVs, with each new model packed full of bigger and better features. So we need to clear our stock to make room for these upcoming models!

With that being said, the current TVs on the market are still a great purchase regardless of whether its for a domestic home or on a big rollout. All maintain the stylishly sleek metal design, HDR technology, 4K decoding chip and 4K broadcast platform. Delivering crisp, clear pictures for the ultimate viewing experience.

So don't wait! Come in store or jump online to grab a bargain before the new models arrive and while stocks last!
