OUR **COVID-19** UPDATE

We're fully committed to ensuring the ongoing health and safety, not just of our team, but for you, your friends and families too. To that end, we're making a few operational changes:

- ▶ As of **Tuesday 24th of March**, we will be shutting down our West Melbourne store, but business will be as usual for online, phone, email and orders sent via carrier pigeon
- ▶ We'll still have a team on hand to answer phones, pick, pack and get ready orders for delivery

For all updates and details, visit www.radioparts.com.au/covid-19
Stay healthy, and don't hesitate to contact us for any more information.

www.radioparts.com.au

T: (03) 9321 8300

F: (03) 9321 8333

► **COVID-19** continues to impact production, trade conferences, delivery times and prices worldwide. That's true for Radio Parts and our suppliers too. The almost 20-yr low in the Aussie Dollar (at time of printing, anyway!) isn't helping matters either. You'll probably notice price changes and delayed shipments of stock and we apologise for any effect on your business. If something doesn't look right, let us know and we'll help as best as we can.

► **AIPHONE** are due to launch their new IX-G series of IP-based apartment or multi-tenant intercoms at the start of April. We'll have more information on our website soon (search IXG), in next month's newsletter, and Aiphone are running an info session at Radio Parts on the 15th of May. www.radioparts.com.au/training

► **NEW HEAVY-DUTY RADIO PARTS REUSABLE BAGS** will be here very soon. With an all-new design, we're hoping you bring at least one with you for your daily visits to our showroom. Of course, if you buy a boxed quantity of a product, we're happy to supply the box for free too!

THE INTEGRATED SYSTEMS EUROPE (ISE) 2020 CONFERENCE finished up back in February in Amsterdam, and will be moving to Barcelona in 2021. Why are we mentioning it now? Because the new products from the show are starting to become available!

► **AUDAC** have new speakers, amplifiers and version 2 of their free Audac Touch app for system control.

► **FIBARO** were showing off the Home Center 3 gateway for Z-Wave smart home integration.

► **THE HDBaseT ALLIANCE** announced HDBaseT specification 3.0, allowing for uncompressed 4K@60 4:4:4 over CAT cabling.

► **OUR PA SUPPLIERS** all announced Dante-enabled products, so expect to see a lot more of those over the next few months.

► **BLUStream** showed off a wide range of products that are available now, so watch their info session from last month on our YouTube channel to see all of those! <https://www.youtube.com/user/radiopartsgroup>

- ▶ Ambient RGB glow base

RSP INC \$59.95

3 ZONE MIXER PRE AMPLIFIER

With truly independent zones (two stereo, one mono) and easy controls, you just need to add amps and speakers! A small cafe with inside and outside areas, an office with adjoining warehouse, or a car showroom with mechanics' workshop out the back, this is the hub of many possible installations. We don't have many left to clear, and once they're gone, you'll need to spend a lot more to get something similar.

ZPR3520 | 01451372

- ▶ 5 x stereo inputs 4 with variable gain
- ▶ 2 x microphone inputs
- ▶ Auto talk-over for automatic music level reduction
- ▶ 2-Band EQ for each zone
- ▶ Two stereo output zones and one mono output zone

Video online

RSP INC \$250

RRP \$500

MUSICCAST BAR 400 SOUNDBAR

YAS408B | 01938714

Yamaha pioneered YSP (Yamaha Sound Projection) technology, which bounces sound off the walls of your room to give the effect of a traditional home cinema. Now the Bar 400 features DTS Virtual: X to simulate a 7.1.4-channel setup. So a true ATMOS cinema sound! You now get Wi-Fi and MusicCast multiroom as well as Bluetooth, AirPlay, an HDMI input, a 3.5mm port, optical inputs and an HDMI output. It also comes with a wireless subwoofer.

REPS' CORNER

PHILIPS PROFESSIONAL DISPLAY SOLUTIONS

I've seen so many domestic-grade televisions used on commercial sites and it always damages my impression of the business. But when I walk into a hotel or walk by a shop front with a Philips Professional panel, I know that someone in charge made a great decision!

If you've got fifty panels in a hotel to tune into digital TV, that single scan could take five minutes per TV. With *USB CLONING*, set one up, save the configuration to a USB stick, then use that stick to setup every single panel identically.

Commercial-grade *CHROMECAST*, *ANDROID* and *CERTIFIED BY GOOGLE* mean your guests and staff have easy access to stream their content right onto the screen reliably, and to install and run apps.

And their free *CMND* software programs centralise all the welcome screens, customised messages, maintenance and all control.

Add to all of that a *THREE YEAR WARRANTY* (extendable to five years), higher brightness and longer run-time options, and you've got a screen that performs the way you want it to, always.

For a simpler job where smart features aren't needed, I'd go for the Studio range like the *32HFL2899T* and *55HFL2899T*. However, in a nursing home, customer-focussed hotel, corporate installation, the Media Suite 5014/6014 ranges are great choices. Either way, you'll be glad you did!

BRILLIANT PICTURE & EASY MANAGEMENT

- ▶ 16/7 Full HD ▶ Beautifully clear, high contrast image
- ▶ HEVC decoding ▶ Low power consumption
- ▶ Secure menu and control locking
- ▶ 3 years warranty, extendable to 5 years ▶ Multilingual customer support
- ▶ Wide range of screen sizes, including large UHD screens

SIMPLE SET UP. FLEXIBLE CONNECTIONS

- ▶ Instant initial USB cloning ▶ Rapidly configure Pro TVs
- ▶ Offline channel editor ▶ Easily manage channels on a PC
- ▶ Mixed channel map to combine analogue, DVB T/C channels
- ▶ HDMI, VGA, SCART ▶ Secure CAM for channel decrypting

COST EFFECTIVE STANDALONE SOLUTION

- ▶ USB media playback ▶ Music, movies, and more
- ▶ HDMI CEC to control external devices
